Data is the new oil of the digital economy. Similarly, making money out of it requires a lot of digging. This talk will take you on a tour of many companies and organizations that utilize their data in creative and amazing ways.

As Co-Founder & Chief Evangelist at Sisense, Adi Azaria is a passionate entrepreneur, investor, author, and an established thought leader in innovative technology. Before founding Sisense he received his BA in Computer Science at IDC Herzliya. Adi has used his extensive experience to help the company triple its growth for five years in a row, as well as raising $100 million in funding.
