There are new clouds in the sky
(or VMware vision and how does the Israeli site fits to it)

VMware, the global leader in virtualization and cloud infrastructure, delivers customer-proven solutions that significantly reduce IT complexity and enable more flexible, agile service delivery. The Israeli site was formed after VMware’s acquisition of Bhive, an Israeli start-up, two and a half years ago and got expanded after another acquisition of VMware about a year ago. In this lecture we will learn about virtualization, about the Israeli site and about the world of QA.

Ronit Halachmi – Bekel has almost 10 years of experience in the high-tech industry, mainly QA and support areas.
