The clinical Psychology program at Baruch Ivcher School of Psychology invites you to a Special Seminar with

Dr. Elna Yadin
Center for the Treatment & Study of Anxiety (CTSA)
University of Pennsylvania

On:

OCD in Children and Adolescents

Monday, December 28th 2015, at 4:30pm
Room PEB20, Ivcher-Tiomkin building

OCD is a debilitating neuropsychological condition affecting approximately 2% of the population and which often has its onset in childhood or adolescence. Exposure and Response Prevention (ERP) for OCD is an evidence-based psychosocial treatment for this condition. The lecture will touch upon the challenges presented by the varied nature of this condition in children and adolescents, as well as family interaction and common comorbidities and will discuss the required flexibility and creativity in the approach to treatment.

You are invited!
