The New School of Psychology at the Interdisciplinary Center (IDC) Herzliya cordially invites you to the First IDC Lectures Series on Developmental Psychopathology

The first series will be given by Professor Nathan Fox University of Maryland and IDC Herzliya on Neuroscience and the Environment

The series also includes the following four lectures:

- Sunday, May 3rd  Brain development and sensitive periods
- Monday, May 4th  The effects of early psychosocial deprivation
- Tuesday, May 5th  Temperament and social development
- Thursday, May 7th  New approaches to intervention and training for prevention of maladaptive social behavior.

All lectures will be held at the IDC Herzliya campus Arison-Lauder building, from 17:00 to 19:30 (with a coffee break at 18:00).

*כל ההרצאות יערכו בשפה האנגלית, בספח, עקב מספר מקומות מוגבל, באך ואתרי השיתופיים בספף שבעמוד הזה.
